INTRODUCTION.

THIRD EDITION.

This little catalogue is made up of the books written for children with a selection added from the more simple books for grown people. A small number only of our stories for children is included, but choice has been made of what we think are the most wholesome books of this type.

The catalogue is made at the wish of the Superintendent of Schools and is included by the School Board in the Manual as a guide to the teachers in the selection of books for their classes.

The encouragement of the Superintendent and the devotion of the teachers are helping the Public Library to reach the children of our city more directly than could possibly be done in any other way. The Library is most heartily grateful for this help and believes that no other work which is being done with its books is of so great value.

We should like to emphasize the idea that it is not the intention of the Library to furnish what is generally known under the name of "Supplementary Reading." The School Board provides sets of books which are all that is necessary for this most valuable work. The Library would like to fill another field and help the teacher to find and encourage each child's own personal taste as can hardly be done in any class work. The Library believes with James T. Fields when he says to young folk, "Remember, it is not so much the books you study as the books you read which will be of permanent value to you."

Theresa West,
Librarian.
